PLANT AND SOIL

Contents Volume 303 Nos. 1–2 February 2008

Marschner Reviews

Assessing and analyzing 3D architecture of woody root systems, a review of methods and applications in tree and soil stability, resource acquisition and allocation
F. Danjon and B. Reubens 1–34

Rock-eating mycorrhizas: their role in plant nutrition and biogeochemical cycles
L. van Schöll, T.W. Kuyper, M.M. Smits, R. Landeweert, E. Hoffland and N.v. Breemen 35–47

Regular Articles

The effect of soil pH on chickpea (*Cicer arietinum*) genotype sensitivity to isoxaflutole
A. Datta, B.M. Sindel, P. Kristiansen, R.S. Jessop and W.L. Felton 49–54

Nitrogen economy in relay intercropping systems of wheat and cotton
L. Zhang, J.H.J. Spiertz, S. Zhang, B. Li and W. van der Werf 55–68

Research Article

Soil organic matter dynamics under soybean exposed to elevated [CO_2]
A.L. Peralta and M.M. Wander 69–81

Regular Articles

Application of silicon sources increases silicon accumulation in perennial ryegrass turf on two soil types
U.N. Nanayakkara, W. Uddin and L.E. Datnoff 83–94

Galling by *Rhopalomyia solidaginis* alters *Solidago altissima* architecture and litter nutrient dynamics in an old-field ecosystem
G.M. Crutsinger, M.N. Habenicht, A.T. Classen, J.A. Schweitzer and N.J. Sanders 95–103

Uptake kinetics of different arsenic species by *Brassica carinata*
B. Irtelli and F. Navari-Izzo 105–113

Genotypic variation in seedling root architectural traits and implications for drought adaptation in wheat (*Triticum aestivum* L.)
A.M. Manschadi, G.L. Hammer, J.T. Christopher and P. deVoil 115–129

Nitrous oxide and methane fluxes of a pristine slope mire in the German National Park Harz Mountains
N. Tauchnitz, R. Brumme, S. Bernsdorf and R. Meissner 131–138

Selenium uptake and its influence on the antioxidative system of white clover as affected by lime and phosphorus fertilization
M.d.l.L. Mora, L. Pinilla, A. Rosas and P. Cartes **139–149**

More than the sum of its parts? Assessing litter heterogeneity effects on the decomposition of litter mixtures through leaf chemistry
N. Pérez Harguindeguy, C.M. Blundo, D.E. Gurvich, S. Díaz and E. Cuevas **151–159**

The effectiveness of soil-applied FeEDDHA treatments in preventing iron chlorosis in soybean as a function of the o,o-FeEDDHA content
W.D.C. Schenkeveld, R. Dijcker, A.M. Reichwein, E.J.M. Temminghoff and W.H. van Riemsdijk **161–176**

Grazing history effects on above- and below-ground litter decomposition and nutrient cycling in two co-occurring grasses
M. Semmartin, L.A. Garibaldi and E.J. Chaneton **177–189**

Seed water status and root tip characteristics of two annual grasses on lichen-dominated biological soil crusts
M.D. Serpe, S.J. Zimmerman, L. Deines and R. Rosentreter **191–205**

Nematicidal activity of Okinawa Island plants on the root-knot nematode *Meloidogyne incognita* (Kofoid and White) Chitwood
S. Taba, J. Sawada and Z.-i. Moromizato **207–216**

Toxicities of soluble Al, Cu, and La include ruptures to rhizodermal and root cortical cells of cowpea
P.M. Kopittke, F.P.C. Blamey and N.W. Menzies **217–227**

Senescence and N release from clover roots following permanent excision of the shoot
I.J. Bingham and R.M. Rees **229–240**

Competition alters plant species response to nickel and zinc
A. Koelbener, D. Ramseier and M. Suter **241–251**

Dynamics of C, N, P and microbial community composition in particulate soil organic matter during residue decomposition
K.V. Ha, P. Marschner and E.K. Bünemann **253–264**

Studies on litter characterization using ^{13}C NMR and assessment of microbial activity in natural forest and plantation crops' (teak and rubber) soil ecosystems of Kerala, India
J. Abraham and J.A. Chudek **265–273**

The identification and quantification of arsenic-induced phytochelatins—comparison between plants with varying As sensitivities
H. Schulz, S. Härtling and H. Tanneberg **275–287**

Intraspecific variation of metal preference patterns for hyperaccumulation in *Thlaspi caerulescens*: evidence from binary metal exposures
A.G.L. Assunção, P. Bleeker, W.M. ten Bookum, R. Vooijs and H. Schat **289–299**

Mycorrhizal dynamics under elevated CO_2 and nitrogen fertilization in a warm temperate forest
M.O. Garcia, T. Ovasapyan, M. Greas and K.K. Treseder **301–310**

The impact of long-term elevated CO_2 on C and N retention in stable SOM pools
M.-A. De Graaff, C. van Kessel and J. Six **311–321**

Experimental forest soil warming: response of autotrophic and heterotrophic soil respiration to a short-term 10°C temperature rise
A. Schindlbacher, S. Zechmeister-Boltenstern, B. Kitzler and R. Jandl **323–330**
